Synopsis : The course aims at providing an exposure on issues pertaining to ELT/LLT. TESL as a discipline, research in SLA, writing research proposal and issues in SLA are just some of the areas that will be explored in the discussions. Other lecturers will be invited to lead and engage in discussion on different topics. Critical reading on selected articles and critical writing are encouraged in the class. Participants will be given the opportunity to review some of the empirical research done by other researchers. Participants will be required to review previous students' research proposals and produce a mini project and orally present their own proposal in class.
